

Environmental Management Policy

Thai Rubber Latex Group Public Company Limited is aware of the current environmental situation. This is considered a serious problem that has reached a critical stage that affects the quality of life of people in society and the limited natural resources. The Company has therefore formulated an environmental management policy to serve as a guideline for dealing with environmental impacts arising from the Company's business operations and in order to comply with the Sustainable Development Policy as follows:

1. Be Committed to complying with the requirements of environmental laws and other relevant laws
2. Energy is utilized in an efficient manner and managed to maximize efficiency, including choosing clean or renewable energy to replace fossil fuels.
3. Reduce the use of energy and chemicals that cause greenhouse gas emissions.
4. There is a valuable water use management to achieve maximum efficiency. In the case of sharing water sources with communities, water management must be carried out with good governance and consideration for community rights.
5. Waste and industrial wastewater are disposed of properly, efficiently and without affecting the community and the environment.
6. Solid waste and plastic waste are managed properly and effectively without affecting stakeholders and the environment.
7. Air pollution, water pollution, noise pollution, vibration and hazardous waste pollution are managed appropriately and without affecting stakeholders and the environment.
8. Promote an organizational culture that raises awareness of energy use. Use water wisely. Protect and restore ecosystems and biodiversity.
