

Corporate Social and Environmental Responsibility Policy

Thai Rubber Latex Group Public Company Limited operates its business by prioritizing social and environmental responsibility, alongside building economic stability and conducting business with good governance, to benefit all stakeholder groups, including employees, shareholders, customers, business partners, government agencies, communities, and society as a whole.

1. Conduct business with transparency and ethics, adhere to good governance principles, and aim to build trust among all stakeholder groups.
1. Promote efficient resource utilization and reduce environmental impacts through the use of renewable energy and eco-friendly innovations.
2. Develop communities and society, and support social projects that help elevate the quality of life of surrounding communities.
3. Build cooperation with stakeholders and provide opportunities for all parties to participate in social and environmental responsibility activities.
4. Promote human rights and fair labor, treat employees fairly, and respect the fundamental rights of labor.
5. Disseminate and communicate continuously, and publicize social and environmental responsibility policies and activities to keep stakeholders informed and engaged.
